## FPSA-Jonathan West Tribute 2022

Our dear colleague Jonathan West passed away unexpectedly in January 2022. Jon was a longtime FPSA member serving at times on the Executive Council and frequently as the Chair for the Public Policy/Public Administration section for the annual meetings. He was a 2016 recipient of our Manning Dauer Award for his exemplary record of research, teaching, mentoring, and service related to Florida politics and policy and supportive involvement with FPSA.

Dr. West joined the University of Miami faculty in January 1981 and had a profound impact on its community and the study of public administration. West was a member of the Iron Arrow Society and received the university's Luis Glaser Mentorship Award in 2021. He led the University of Miami MPA program for more than 40 years and recently headed its new MPP program. Prior to serving as chair of its MPA department, he was chair of its political science department. West published nine books, four research monographs, and more than 150 articles and book chapters during his career. He was a valued contributor within each community he touched and will be greatly missed.

## Manning J. Dauer Award

Manning J. Dauer was a distinguished professor in the Department of Political Science at the University of Florida for over half a century. When he passed away in 1986, he left a legacy that is unparalleled in the State of Florida. He had served as both a formal and an informal advisor to scores of governors, the state legislature, mayors, county commissioners, and city councilpersons. Indeed, it is said that he left his imprint on many public policies at both the state and local level. He is perhaps best known for leading a team of scholars and public officials that devised a reapportionment scheme for the State in the aftermath of the famous Baker v. Carr and Reynolds v. Sims cases. As an academic, he wrote numerous articles and books on state and local government and politics, and his work was frequently cited by other scholars. He also edited a well-received book on government and politics in Florida. Professor Dauer was a well-known figure within and outside of academia including both the political science and public administration communities, local and state government, and the media. But his heart and loyalty were perhaps tied closest to the organization that helped to co-found—the Florida Political Science Association (FPSA). In the late 1990s, the FPSA decided that it was time to establish a lasting and fitting tribute to the person who had breathed life into our Association and devoted so much of his time and energy to the FPSA and the state he loved. To that end, the Association’s officers, Executive Council, and membership in 2000 created the Manning J. Dauer Award that would be given every three years to a faculty member at a Florida institution.

Recipients of the Manning Dauer Award should have a sustained exemplary record of research, teaching, mentoring, and service related to Florida politics and policy and supportive involvement with the Florida Political Science Association. Like Manning Dauer himself, recipients of the award should be recognized experts on Sunshine State politics and have impact and recognition beyond the discipline of political science reaching out to their local community, the state, nation and/or internationally.
